DATE: December 18, 2020

SUBJECT: 2021 Pollution Control, Fire Suppression, and CWIP Exemption Request

Enclosed you will find notice for the Department of Revenue web site reference for the Tax Year 2021 Pollution Control, Fire Suppression and CWIP Exemption Applications as required by W.S. 35-11-1103 and Wyoming Department of Revenue Rules and Regulations, Chapter 14, Sections 8 and 10. Hard copies of the forms **will not** be mailed this year. **Please complete and submit separate applications for all Pollution Control, Fire Suppression equipment and Construction Work In Progress (CWIP) that is related to pollution/fire control and provide all necessary supporting documentation for verification of the exemption.** Forms can be found at the following web site: <http://wyo-prop-div.wyo.gov/> under the following tabs: Public Utilities, Forms, Pollution/Fire Control Exemption.

The exemption amount allowed each year for pollution control and fire suppression equipment shall be the net book (installed cost less accrued depreciation) multiplied by the percent of exemption allowed by the Department of Revenue for each separate item. Please provide a separate listing for the accumulated depreciation for each item submitted. This information should relate to January 1, 2020 through December 31, 2020. **On or before** February 15th of each year (unless the 15th falls on a weekend or holiday), all Department Assessed property owners or agents requesting a Property Tax Division tax exemption for pollution control, fire suppression and associated CWIP shall file with the Department of Revenue the required application forms that were noted above. If a completed application is not postmarked by the February 15th deadline, the exemption requests will be denied in their entirety as untimely.
